THE CARER

FOR NURSING AND RESIDENTIAL CARE HOMES

FEATURES LIST 2027

FEATURE SYNOPSIS:

Accessible Bathing
Solutions for safe, accessible bathing, focusing on equipment, grab rails, and adaptive bathroom design.

Afternoon Tea Week
Covering activities and catering and hydration options to keep residents refreshed and entertained during Afternoon Tea Week and beyond.

Assistive Technology
Covers technology aids for communication, mobility, and daily living, including wearables and alert systems.

Care Home Insurance
Covers insurance policies, liability coverage, and risk management strategies specific to care facilities.

Continence Care
Products and protocols for incontinence management, including wearable technology and staff training.

Cyber Security
Cybersecurity measures for protecting patient data, including compliance, access control, and staff training.

Dysphagia & Nutrition
Approaches for managing swallowing difficulties, including diet modifications and hydration aids.

Energy Solutions
Energy efficiency in care settings, covering cost-saving measures and sustainable practices, like renewable energy options and energy management systems.

Fire Safety
Covers fire safety protocols, equipment, training, and emergency planning specific to care facilities.

Floors & Floorcoverings
Focus on safe, hygienic, and resilient flooring options for high-traffic areas in care facilities.

Hydration & Nutrition
Approaches for managing swallowing difficulties, including diet modifications and hydration aids.

Interactive Entertainment
Focus on engaging activities and entertainment for residents, including virtual reality, music therapy, and art programs.

Kitchen Design & Equipment
Efficient kitchen layouts and equipment solutions tailored to meet the dietary and volume needs of care facilities.

Medical Aids
Reviews assistive devices for daily living and mobility, from walkers to adaptive utensils.

Medication Management
Technologies, policies, and practices for safe and efficient medication administration, including electronic medication records.

Nutrition and Hydration
Addresses standards and solutions for maintaining hydration and nutrition, covering assistive eating devices, water stations, and hydration tracking.

Odour Control
Odour management systems and practices to maintain a comfortable living environment for residents.

Outdoor Spaces
Highlights accessible and therapeutic garden designs, sensory gardens, and outdoor furniture.

Patient Handling & Moving
Covers safe handling and lifting equipment, such as hoists and slings, to ensure patient and staff safety.

Payroll Solutions
Payroll management systems tailored for large staff rosters and varying shift patterns in care facilities.

Pressure Care
Prevention of pressure sores, including specialized beds, cushions, and proactive monitoring solutions.

Sensory Care
Approaches and equipment to support sensory needs, beneficial for residents with dementia or sensory processing issues.

Uniforms & Workwear
Focus on functional, comfortable, and hygienic workwear designed for care staff.

Waste Management
Environmentally friendly waste disposal methods, focusing on biohazard management and recycling.

Each feature provides timely, practical advice, reviews, and solutions designed to support the operations, safety, and well-being of residents and staff in care environments.
